WINTER GARDEN DISTRICT FARMS FOR SALE.

**BUY ONE WHILE THEY ARE STILL TO BE HAD AT
\$40 AN ACRE, OIL AND COAL RIGHTS INCLUDED.**

Listen to what a keen observer says about WINTER GARDEN DISTRICT Farms:

"SOIL, CLIMATE, TRANSPORTATION, HIGHWAYS, WATER FOR IRRIGATION, SCHOOLS, CHURCHES, BANKS, STORES, Yes, the famous WINTER GARDEN COUNTRY has everything with which to make a prosperous, substantial, successful farming country. It is but four hours' drive over the WINTER GARDEN TRAIL to the greatest city in Texas, and only one hour's drive to EAGLE PASS, THE CENTRAL GATEWAY TO MEXICO. Land values are at the lowest figures you will see. This land will produce all staple crops, fruits, including citrus. Think of being able to buy raw land in 25-acre tracts at a price that will enable you to improve it and not have the total cost of land, water, fields, etc., exceed \$100 an acre. WHAT ARE YOU WAITING FOR? Compare this price with Lower Valley at from \$250 to \$1,000 an acre; California at from \$500 to \$5,000, and Florida at any old price you care to mention, from \$500 up, mostly up. Strike while the iron is hot. Some 400 homeseekers from all over America grasped this opportunity last week and bought 5,000 acres. If you let the Lower Valley get away from you, here is the 'number two knock' on your door, and a louder knock at that."

We have a tract of this famous WINTER GARDEN land, located on the Eagle Pass-Dilley Highway and only thirteen miles from Carrizo Springs, a railroad shipping point, with abundance of ARTESIAN WATER at 500 feet from the surface, and improvements which can not be replaced for \$5,000, consisting of a six-room frame house, a tenant house, stone barn and loft, artesian well, windmill, and a dirt tank 90x180. This tract will cut into twenty-eight 25-acre farms, and we can sell you one or more of these under the following conditions:

CASH	\$500.00
Five yearly notes of	
\$100 each at 8% -	500.00
Cost of 25 acres,	\$1,000.00

In order not to give anyone purchaser the advantage over the rest in picking his or her tract, we shall number each 25-acre tract and have the purchasers draw their tracts by lot after all the tracts have been signed up for and the first payment deposited, in trust, with the State Bank and Trust Company of Eagle Pass, Texas. ONE OF THE 25-ACRE TRACTS WILL DRAW THE IMPROVEMENTS.

No part of this entire tract ever overflows.

Prof. W. N. Saathoff attended the Shook Community Fair at the Shook school house Thursday. He says that four neighboring schools were represented and that the agricul-tural exhibits and the school exhibits, including all kinds of needle work by the domestic science classes, were highly commendable. About five hundred people attended the Fair and a most enjoyable and profitable day was spent by all on the grounds.

"HANDS OUT SOME LEMONS."

Prof. W. N. Saathoff believes in showing the better side of Medina County's life and industry to the world. Accordingly he has sent an exhibit of Ponderosa lemons to the San Antonio Chamber of Commerce to be shown to all who may be in-terested.

The lemons were plucked from a tree growing in Herman Faselers' yard near Yancey. At the time they were plucked there were two dozen ripe lemons on the tree, four dozen immature and the tree was still in bloom.

Mr. Saathoff has a fruiting and blooming lemon tree in his yard here in Hondo, but he doesn't claim it to be quite the equal of Mr. Faselers'.

But any way, let's all have a lemonade on the Professor!

Education does not commence with the alphabet; it begins with a moth-er's look, with a father's nod of ap-probation, or a sign of reproof! with a sister's gentle pressure of the hand, or a brother's noble act of forbear-ance; with handfuls of flowers in green dells, on hills and daisy med-ows; with birds' nests admired, but not touched; with creeping ants; and almost imperceptible emmets; with humming bees and glass beehives; with pleasant walks in shady lanes, and with thoughts directed in sweet and kindly tones and words to nature, to beauty, to acts of benevolence, to deeds of virtue, and to the source of all good—to God himself—Anon.

TO AUTO OWNERS.

The attention of all owners of motor vehicles and motor-cycles is called to the following provision of the Texas Automobile Headlight law:

"Section 16: Before any county tax collector shall issue a certificate of registration to the owner of a motor vehicle or motorcycle as now provided by law, he shall require the presentation of a certificate showing that the headlights of such motor vehicle or motorcycle have been tested and adjusted at one of the county test stations referred to, and that said test and adjustment have been made within the 30 day period just preceding the date of application for registration." Since headlamps must be adjusted within thirty days of the date of registration of the cars, approximately two months will be available for the pre-registration tests. Considering extreme cases, for example, if a car is registered on January 1st, the owner will have had thirty days in which to have the headlamps adjusted, and if a registration is made on January 31st, practically the whole month of January will have been available. In other words, the certificate of adjustment must not be over thirty days old at the time the car is registered. Of course, most motorists will have their headlamps adjusted about the time of registration.

Motorists are requested to begin registration at the earliest possible time and not wait until the latter part of January. Early registration will help the Tax Collector tremendously, and will save time for the motorist. The regular registration period will begin in this county about December 1st, 1925.

F. G. MUENNINK, TAX COLLECTOR, MEDINA COUNTY. BRIDGE CLUB.

The Bridge Club was most delightfully entertained Wednesday evening at the L. E. Heath home with Mrs. Heath and Miss Lorraine Heath as hostesses.

At the conclusion of several hours of playing, Mrs. Charles Johnson held high score and was awarded a beautiful "old-fashioned girl" powder puff box. A book, titled "What You Know about Bridge," was the "booby" prize and went to console Mrs. F. S. Cockrell for low score—the book was found to be made up of blank pages!

Demure Puritan maidens carrying baskets of vari-colored fruits were featured in tallies, and bronze turkey designed place cards and favors of yellow-crepe boxes filled with vari-colored candies in the shapes of nuts and fruits further suggested the Thanksgiving season.

The refreshment course consisted of chicken patties, nut sandwiches, banana and nut salad and hot tea and was served to the following: Mesdames L. J. Brucks, P. P. Brewster, A. N. Eby, Jack Forga-son, F. S. Cockrell, Fletcher Davis, Chas. Johnson and Maies Bess Brucks, Willa Mae Gaines, Lillian Brucks and the hostesses.

The IRON HORSE

A JOHN FORD production
Direct From One Year's Run in New York

In "The Iron Horse," Mr. Fox has pictured in a very effective way one of the very greatest events in American history. The story of the building of the first transcontinental railway is only to be matched in peace time exploits by the voyage of Columbus, the landing of the Pilgrims and the building of the Panama Canal. If this thought is kept in mind it is easy to get the true perspective of this production. "The Iron Horse" breathes the spirit of one overwhelming gigantic achievement.

It is the romantic, dramatic story, historically accurate to the last degree, of the strange life which began with and accompanied the building of our first transcontinental highway.

These men were the soldiers of civilization, opening a way for peace and prosperity.

FACTS ABOUT "THE IRON HORSE"
It took three years to complete "The Iron Horse."
Members of the cast and approximately 5,000 extras lived through the rigorous months on the Nevada desert and in the Sierra range, in tents and lean-to shacks, enduring the same hardships so far as the elements were concerned, as those experienced by the transcontinental pioneers they portrayed.

Two complete towns were built in a setting as picturesque as that which surrounded old Benton at end of track in the days when eastern newspapers described the settlement as "hell-on-wheels."

Three tribes of Indians were used in the picture, one of Cheyenne, one of Sioux and a third of Pawnees.

When fine, hard snow swept down from the high country ahead of a tearing wind, these Indians sat hunched in their blankets, grimly calm. They were the same in the summer months when a desert sun scorched all that it shone upon.

To feed the extras and the Indians it was necessary to employ 100 cooks and assistants.

When supplies ran low, a hurry call was sent, and until the necessities came in they lived on what they had.

The cast included all nationalities, with a preponderance of Irish and Chinese. To dress a regiment of troops in the garb of the old West required 1,000 costumes. The troops came from Salt Lake City under command of Col. J. K. McGee.

In addition to these, costumes were provided for hundreds of girls who appeared in the picturesque hoop skirt and pantalette style of the times, and for cowboys, rail workers and scouts.

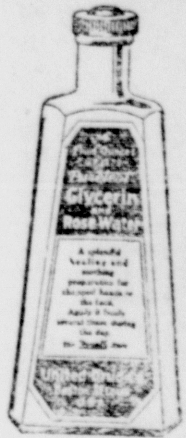

The engines which appear in the picture were the originals of both railroads having been loaned specially for the purpose.

PLANTING ALFALFA.

An experiment with alfalfa is going to be tried out on a somewhat ambitious scale this year, under the direction of County Agent Jack Fargason, who secured the seeds and has supervised the preparation of the land and the seeding of the same. The hairy Peruvian is the variety planted and it is sowed in drills to facilitate cultivation with a plow should it become necessary to keep down weeds and grass in the early stages of the plants' growth. This variety and this method of planting and cultivation has proven quite successful at Laredo, where it was introduced by Prof. Fred W. Mally, now County Agent of Bexar County. There seems to be no reason why it should not thrive here as well as at Laredo under like treatment.

Jack Fusselman is planting 1 1/2 acres in the Hondo Valley which he will irrigate. Horace Bradley is planting five acres and Bine Stone two acres which they will dry farm.

These experiments should go a long way towards demonstrating just what this valuable forage crop may be expected to do under Medina County conditions, and it is to be hoped that it will be the means of establishing it as a permanent crop wherever adapted to native conditions and facilities for irrigation.

SHOWER.

Mrs. Leroy Lehmborg, a bride of recent date, was honored with a shower at the home of Mrs. Fritz Stiegler, Thursday, November 19th. The guests were entertained with a contest, "Inserting the Missing Letter." Two prizes were given, Mrs. Willie Tampke won first prize, a mixing bowl, the booby went to Miss Ruby Brucks. After the contest, refreshments, consisting of chicken and pimento sandwiches, cakes coffee and tea, were served to the thirty guests. The bride was then ushered into the sitting room where she was showered with many useful and beautiful gifts. The gifts were brought in in a large decorated basket, and presented to the bride, by two little girls.

HONDO IN CITRUS BELT.

Don't get excited! Hondo is not going into competition with Florida or California in the production of citrus fruits. Neither is it going to attempt to claim any share in the fame of our own Rio Grande Valley. But Hondo is in the citrus belt!

Mr. T. McCall has demonstrated it by growing 321 oranges this year on a tree in his back yard.

The oranges are fair average size and good quality and flavor and are being very much enjoyed by Hondo epicures, both from a sentimental and a gustatory reason.

KILLS HER FIRST DEER.

Mrs. Phil C. Jagge, residing on the Hondo some fifteen miles northwest of Hondo, killed a four-prong buck early Thursday morning. While Mrs. Jagge is an experienced ranch woman and a good shot, this is the first deer she ever killed and naturally she is very much elated.

Mr. Jagge was among the first of the open season's lucky nimrods, he having bagged a fine buck on the first day of the hunting season.

INA-MEDINA FIELD TO BE DEVELOPED.

Operators Arranging to Drill Wells Sufficient to Warrant Pipeline.

Deals are pending which will probably mean that several leases in and around the Ina oil field will be drilled at once and with the assurance that as soon as sufficient production is developed a pipe line will be built. The distance is only about 10 miles in either direction to the Southern Pacific or east to the International-Great Northern. At present the field consists of six wells and with the Arnett completing another, Ina Oil Company completing one and with the Gibson Oil Corporation and Eastham & Tarver each getting ready to drill additional wells.

Two new operators are now figuring on coming into the field and their entrance with the operations of those already in the field will mean the development of enough production to warrant a pipe line. Gibson Oil Corporation is offsetting the Eastham & Tarver well on the south 300 feet and Eastham & Tarver are offsetting their own well 300 feet on the west. The derricks and rigs for these tests are moving in.

The field with the exception of the discovery well and the No. 2 well of the Ina company is all on the west side of the Hondo river and in the P. E. Durst survey No. 15. Ina Oil Company now is drilling the No. 3 R. Schmidt also on the east side of the river and probably a half mile from the wells on the west side and has it down to the sand and with a good showing and about ready to bring it in. It is located on the P. E. Durst survey 3,006 feet west of the east line and 2,282 feet north of the south line. Cas-

ing was set in the Ina well last Thursday and it will be ready to bring in some time the coming week and will give the field considerable extension if it makes as good a well as the showing seems to indicate.

Gibson Oil Corporation is the first big company to enter the field and it has acquired enough of the acreage to develop a profitable lease. The No. 1 Viola Wilson, formerly known as the Smith-Donaldson well, has been pumping 40 barrels according to J. E. Walsh, who is associated with the Gibson Oil Corporation in the development of the lease. The tubing was pulled last week and the well washed again and it will go back on the pump and he believes that the additional washing will result in a larger production.—Sunday's Express.

Better Buick operating costs are very low. This car is thrifty—both in purchase price and in ownership.

Buick design protects all operating parts from dust and wear—barricades them with iron or steel housings in the famous Buick "Sealed Chassis" and "Triple Sealed Engine".

The famous Buick Valve-in-Head engine develops

more power from a given quantity of gasoline than other types of engines.

And now, the Buick oil filter makes it necessary to change crankcase oil only at rare intervals.

Even smaller, less powerful cars do not match the Better Buick in low cost of operation and maintenance. You add to your power to economize when you buy a Better Buick!

The BULL'S EYE

Editor and General Manager WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Zigfield, Folles and screen star, and leading American humorist. More coming. Watch for them.

I see where some of the Foreign Nations say they are going to FUND their debt to America, and all the Papers are all excited about it. But the BULL'S EYE is a Paper that never misleads our readers (either one of them). FUNDING a debt means about the same thing as having a fellow that has owed you for years, come to you and say "I am going to make arrangements to take up that loan I owe you just as soon as I can collect it from some fellows who owe me." So don't by any means get FUNDING mixed up with PAYING. The two have nothing in common. These Nations are just stalling until another War comes along and the first thing you know our debt will be four Wars behind. We have enough saved up to fight again, but they are using it now to enforce Prohibition.

Oh, yes, "BULL" DURHAM. I like to forget to mention that. Well, that is what the Foreign Nations are paying us in. "BULL" DURHAM without the DURHAM.

NOTE: The above information was obtained from Secretaries of the Chambers of Commerce, County Agents, and one of our Field men. It is suggested that where a community desires to purchase feed in carlots, they pool their wants, then send a good man to make the purchase in order that he may see just what he is getting. Much of the Maize has been stained by recent rains, but the feeding quality has not been seriously damaged. We could give the address of some of the Produce Dealers, but it is thought best not to give any unless all are given, as it would give rise to criticism on the part of those not given. Write the undersigned for further information if desired.

LACOSTE LEDGERETS.

From The LaCoste Ledger. TO THE CITIZENS OF LACOSTE

What are we going to do with the flood water situation in LaCoste? After every heavy rain the whole town is under water and considerable damage is done to property. We would suggest that the people owning property in the low places, petition the Commissioners' Court to ditch the flood-waters into the Medina River west of town, or dig a straight canal through town that will take care of the water. The way it is at present is a nuisance to everybody. Let's not go to sleep again until the next flood, now is the time to act.

I also took it after I became a mother and it built me up in strength and helped me in every way. My baby is stout and healthy, too."—Mrs. H. E. Ahern, 2021 S. 5th St.
